Hazelnut Shell Charcoal Briquette

Charcoal briquettes pressed from hazelnut shell — long-lasting embers, low smoke; from restaurant kitchens to wholesale and export.

Hazelnut shell charcoal briquette is a briquette-form grill charcoal obtained by carbonizing and pressing the shell released after hazelnut processing. The briquette form gives a more regular size and density than loose charcoal, which makes burning more predictable. We source from suppliers in the Black Sea region, and ship the batches we put through quality control to domestic restaurants, hotels and wholesalers, and by the container for export orders.

GENERAL AND LOGISTICS INFORMATION

Origin	**Türkiye (Black Sea region)**
Raw material	**Carbonized hazelnut shell**
Form	**Pressed briquette**
Calorific value · moisture · ash	**Varies by batch — an exact figure isn't committed to**
Packaging	**Carton box / sack / bulk**
Delivery	**Domestic (by truck) · Export (terms set together with the container)**
Minimum order	**Evaluated to request**
Sales unit	**Ton · Tır/Konteyner**
Category	**Nut Shells & Biomass Fuel**

KEY CHARACTERISTICS

- Stays in embers a long time, needs infrequent topping-up
- Low smoke and sparks, suited to enclosed/semi-enclosed spaces
- Pressed briquette; does not crumble easily in transport and storage
- Natural scent, contains no chemical additives
- Regular size and stable burn thanks to the briquette form
- Flexibility for both retail and wholesale packaging

MAIN AREAS OF USE

- **Restaurant and Kebab Kitchens** — Provides long-lasting, steady embers for grilling; reduces the need to add charcoal often during busy service.
- **Hotels and Catering** — With its low smoke, offers comfortable use in enclosed/semi-enclosed areas at buffet and event grills.
- **Retail / Grocery Chains** — Supply of grill charcoal in consumer-facing carton-box and sack packaging.
- **Export / Wholesale Distribution** — Regular shipment by the container to distributors in overseas markets.
- **Small-scale Heating** — Also used as a solid fuel in ovens and small boilers.

PACKAGING AND DELIVERY

Shipped in retail-ready carton-box and sack packaging or bulk wholesale loading; for export orders, container-appropriate stacking is applied.

Shipment note: Shipments by the truck to domestic restaurants, hotels and wholesalers, and by the container to export markets;
