Corn Cob Granule

An absorbent, light abrasive granule — industrial cleaning, grain polishing and bedding applications.

Ground from corn cob and available in different calibres, this granule is set apart from other shell granules by its high absorbency and light abrasiveness. It holds oil and moisture without harming hard surfaces, so it is preferred in industrial cleaning and in grain/seed processing lines. Its light, porous structure is also used in jobs that need absorbency, such as animal bedding. Being lower in density than other hard-shell granules, it stands out in cleaning and polishing rather than blasting.

GENERAL AND LOGISTICS INFORMATION

Origin	**Türkiye**
Product	**Ground, calibre-graded granule**
Calibre / mesh	**Available in different ranges (confirmed with a sample)**
Absorbency · moisture	**Varies by batch — an exact figure isn't committed to**
Packaging	**Big-bag or sack**
Delivery	**Domestic (truck) · Export (FOB/CIF)**
INCI name	**Zea Mays Cob Powder**
CAS · EC No	**68525-86-0 · 271-199-1**
Sales unit	**Ton · Big-bag**
Category	**Industrial Granules**

KEY CHARACTERISTICS

- High absorbency, low abrasiveness
- Light and porous structure
- Lower density than other shell granules
- Available in different calibre/mesh ranges
- Natural, biodegradable
- A cleanliness standard compatible with the grain industry

MAIN AREAS OF USE

- **Grain & Seed Polishing** — Used for surface polishing, dedusting and the final cleaning stage on seed and grain processing lines.
- **Industrial Oil/Moisture Cleaning** — Used as a cleaning material to absorb oil and moisture on metal-part, floor and equipment surfaces.
- **Light Blasting & Surface Cleaning** — Preferred for cleaning jobs that need low abrasiveness on delicate surfaces.
- **Animal Bedding & Filler** — Used as bedding and filler thanks to its high absorbency and light structure.
- **Industrial Filtration Media** — Used as a light, porous filter medium in some filtration applications.

PACKAGING AND DELIVERY

25 kg sack or big-bag; bulk big-bag shipment for large-volume requests.

Shipment note: Regular shipments by the truck to the domestic grain and feed industry, and by the container for export.
